Profile

Engineer and junior analyst with a diverse technical background and strong academic credentials. Proficient in leveraging Excel, Python, and Power BI to perform statistical analysis and apply simple calculus-based modeling, complemented by experience in cloud engineering, programming, and the utilization of various engineering software tools. Proficient in analytical problem-solving abilities, attention to detail, and a collaborative work style, committed to driving data-driven insights that enable informed business decisions. Also gaining experience in basic cloud-based infrastructure design, programming, and engineering software utilization. Holds a Bachelor of Science in Mechanical Engineering, with coursework in statistics, calculus, programming, and cloud computing with some experience of translating data into actionable recommendations through cross-functional collaboration.

Experience

Junior cloud practitioner and data analyst | Nedamco Africa | December 2023 - Present

- Completing some prototype projects such as : Cloud migration for environmental startup, Carbon footprint calculator, storing and analyzing data on azure blob storage with python.
- Collect and clean data from various sources, ensuring data quality and integrity.
- Perform data analysis to identify patterns, trends and insights, develop interactive dashboards and reports using Power Bi to visualize data and communicate findings.
- Analyzing, presenting, and story telling from the output to take necessary actions.
- Taking several certifications.

Marketing officer | Vision Advert | August 2023 – September 2023

- Monitor market conditions, product innovations, competitor activities and price changes to identify business opportunities and threats.
- Develop and implement strategies for sales growth.
- Negotiate and adjust prices on products and services in accordance to company policies.

Additional Experiences

- Work as Intern at Rais Engineering Services and South Water Works Construction Enterprise.

Education

Bachelor of science in Mechanical Engineering | January 2023 | Mekelle University, Mekelle , Ethiopia.

- CGPA 3.6 | with electromechanical stream.

Certifications

- Getting started with Python| Coursera.
- Azure Fundamentals | Azure AI Fundamentals | Microsoft.
- AWS Cloud Practitioner | Amazon.

- Computer Hardware Basics | Operating system Basics | Networking Basics | Cisco.
- Mindset and life skill | Kilimanjaro innovation.

Skills & Abilities

- Microsoft tools : MS-office, Excel, PowerPoint
- Programing Languages : Python, C#, CSS
- AWS management console, MS Azure VM environment
- CAD software : AutoCAD, SolidWorks, Catia
- Basic analysis in Excel and Power Bi
- Excellent interpersonal and communication skills
- Team work
- Critical Thinking

Activities and Interests

Environmental conservation, Art, Social interaction, Travel, Podcasts.
